Director of Central Intelligence to the Archivist of the United States. STRIBUTION STATE WAR NAVY JUSTICE REE C&O ATR 5X1 1. According to an order of the Department of Industry of SMA Karlshoret, reparations orders are no longer to be carried as credit orders, which had been done for some time past, but are to be designated as ordinary orders. (The term credit orders had been introduced because none of the first working on reparations orders had even been paid for their deliverises, but had received payments in form of oredits by the Statbank in Berlin and the Landerbanken in the various states and provinces of the zone.) The prices for these orders are calculated by the samufacturers and then checked by the Garman Price Office in the Kriminalgericht, Berlin-Moabit*sthus far they have been accepted by SMA without question. 2. Group supervisory firms have been set up, each of which takes care of placing orders for items in one certain field. In the chemical field, for example, the supervisory firms base been set up, each of which takes care of placing orders for items in one certain field. In the chemical field, for example, the supervisory firm Castav Christ & Co.y Apparatebus-Anstalt, Berlin, Weissense, has the following orders to place for production becember 1947: 12,000 tons of drying apparatus for the chemical and food industries. (Order from Cosmaisseriat for Food.) This appartus is for production of dried milk and yeast. 800 tons of chemical apparatus for production of gases and acids (suitable for wer materials and explosives). 900 tons of sulphate lixivitation plants for the cellulose industry. The entire order is being produced by Mafa, Sangerhausen (Maschinenfabrik Sangershausen A.G.). 600 tons of pumps of all sorts for the chemical industry. 150 tons of pharmaceutical apparatus. All of these orders are booked as ordinary orders. Firms which have little capital get credits.		25X1	COM BRACE	i is he chy buy schair. Lin accordance with th	io P	AGES 2

CENTRAL	INTELLIGENCE	CROUP		

these long range orders are soant to fill gaps in the Russian Five Year Plan. Plants which receive such orders are supplied with all necessary raw materials with the result that many firms do not have room to store all the materials. It is claimed that nearly all firms in the Soviet Sector of Berlin and in the Soviet Zone are either working on Russian orders directly, or else are supplying other firms working on Russian orders. Manufacturers are able to get raw materials only if they can prove they have Russian orders.
